

A young boy with short brown hair is running across a grassy field. He is wearing a grey long-sleeved shirt, light grey pants, and blue sneakers. A blue flag is attached to his back, and he is running towards the left side of the frame. The background is a blurred green field.

## Fast feet **fetch** flag

By **Vicente (Adventure Club)**

I got the big flag! Then I got three little flags so I really helped my team when we played Capture the Flag.

It is a really good game where you try to capture five flags.

Getting three of them in the first 30 seconds is really good. My friend

**James (Adventure Club)**

and I came up with an idea to get the flags.

James

went to the other team's side and acted as a distraction. I went to their side to get their flags without them seeing me. The only thing I didn't like was when someone got tagged the other people would puppy-guard the jail.

## Lessons learned about nature and the ‘**new normal**’

**Audrielle (Preschool)** and **Kanoa (Preschool)** put their arms straight up above their heads so they could be trees. Circle Time has included lessons about autumn nature. They also put their arms straight out wide so they could share an air hug. Circle Time has included lessons on how to be safe during the new normal of COVID-19.

## **New game Sockey** starts with boredom and a ball

By **Jerry (Adventure Club)**

Sockey was created in the morning before school when we were bored. We found a soft mini-soccer ball and made a net with two chairs. Once there was someone trying to block the shots. We started a game: without picking up the ball, we attempt to shoot on the other side's net. Sockey has become a popular game at Spare Time. Photos (top): **Jagger (Adventure Club)** in net, me shooting; (bottom) Jagger making a move.

## Twist wrists

By **James (Adventure Club)**

If you want to get good  
at foosball: practice,  
have fast handy-dandy  
wrist work and  
accurate dribbling.

I consider myself okay.  
I can beat some people  
but not everyone.

## Tall tower topples

By **Ashly (Discovery Club)**

I built a tower. It got tall  
and then it fell. I was surprised.

## Brick-By-Brick **by brains**

By **David (Discovery Club)**

Brick By Brick is the best mind game. When I was building Challenge #14 I thought, "How do I finish this?!" I was about to blow my mind up when suddenly my brain started thinking extra hard. Brain power got into my mind when I was going to do the last brick. 400 IQ went into my mind before I moved to Challenge #15. I felt like Jimmy Neutron!

## Shape up

By **Ketzia**  
(Adventure Club)

Tangram is a Chinese wooden puzzle. I used the shapes to make this rabbit, a crane, a pear and a spade.

The pear was really easy and the crane was kind of hard. There are others that I want to try because making them is fun.

# That's the way the **Cookie** tumbles

By **Winston (Explorers Club)**

Once upon a time there was a cat called Cookie. He went looking for a place to eat. There was a dog called Sugar who was also looking for a place to eat. They arrived at the same store. Sugar wanted to chase Cookie. Cookie ran. He fell into a bag of flour. His whiskers turned white.

**Messy McIntosh** is an apple a day the marble way

By **Peggy** (Preschool)

I had a box and two marbles. I put red and yellow paint on the marbles.  
I rolled the box back and forth. It made a mess on the apple. It looks nice.

## Walking the dog

A stroll at 8370 Cartier Street in November 2020 revealed:

**Nice (Discovery Club)** said her name is from Turkey. A Staff said, "I have been to Turkey." **Carolina (Discovery Club)** said, "I have eaten turkey." The saying "birds of a feather flock together" seemed strangely appropriate for the table.

"This is oddly satisfying," **Vicente (Adventure Club)** playing "bumpy rope" an invented game of players constantly moving to keep a Chinese skipping rope stretched in an ever-changing wide shape. Elastic energy.

Twins in **Preschool**. Twins in **Explorers Club**. Twins on the wait list. Twins applying to attend in September 2021. Triplets anyone? Now that would be a first.

Photo: Feet feat by **Nicolas (Explorers Club)** who completes the "left foot, right foot" puzzle with stylish feet. "My sox have lots of colors and they are so cozy."
