

Sliding is fun...

By **Stephanie (Adventure Club)**

Sliding in a saucer is awesome!

The trick is to go crazy:
forward, backward,
spin or flip over.

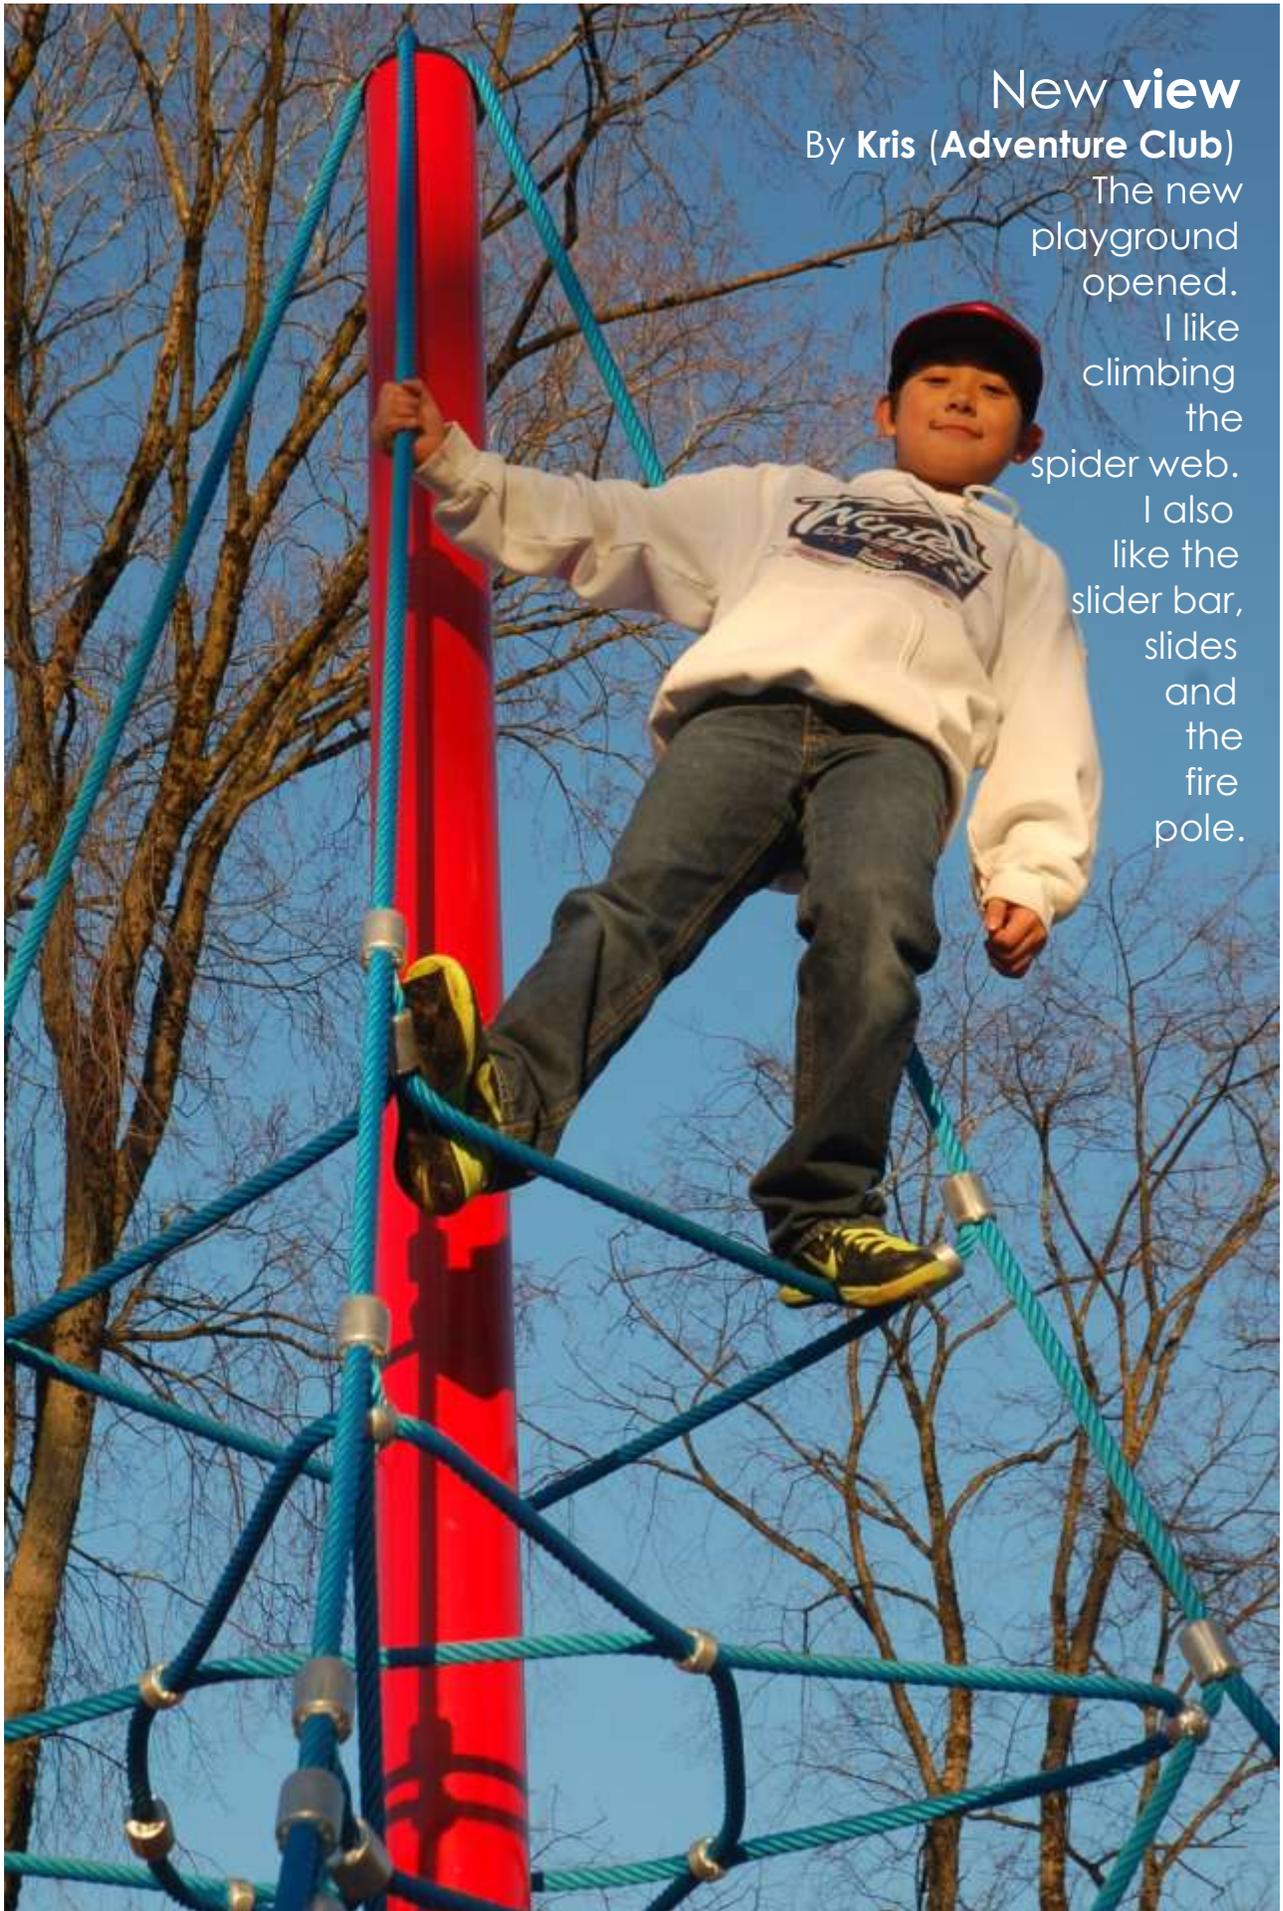

...rolling is work

By **Randy (Adventure Club)**

It's hard and painful
to make a snow
fort.

New view

By Kris (Adventure Club)

The new playground opened.

I like climbing the spider web.

I also like the slider bar, slides and the fire pole.

Fall ball fall

By **Nicholas M (Adventure Club)**

It took a long time to build the Keva Wrecking Ball. We had to wait for the glue to dry. Here's how to use it:

- * wind it up until the ball is at the top
- * put the pin in
- * build a Keva tower
- * pull the pin out
- * watch the wrecking ball fall and the tower topple.

Bionicle built

By **Ian M (Discovery Club)**

I made this Bionicle from scratch. It took about two days.
I like Bionicles because I can make my own robot.

Jumbo jet circles room as friends choose a favorite trip

Iain H (Explorer Club) likes to fly the Lego airplane around the room. Some Explorer Club friends were asked, "Where would you like to go on an airplane?"

Adam B – Kamloops to play cars with grandma and grandpa.

Arabella – The Philippines to play monkey.

Caleb – Texas to play with my cousins.

Cameron – The beach to see crabs.

Cyrus – Japan to ride trains and see the zoo.

Jode – Japan to see tigers and giraffes.

Ketzia – Disneyland to see characters like Elsa and Olaf.

Kian – Disneyland to ride the caterpillar Chew Chew train.

Maya – Japan so people can lead me to Candy Land.

Olivia – Maui to go boogie boarding.

Sierra – China to hear how they say words like "ni hao".

Twister **twists** her

By **Irina (Safe Base)**

If you're flexible
try Twister.

It's tiring
if you
have to stay
in the
same position
for a long time.

If you're
a small person
then it will be hard
if you have
to stretch
across
the entire mat.

I like
to play
because
it is
challenging
to keep
your
balance.

Happy to hop

By Jessica (Preschool)

I hop fast.
I like to hop
on one foot
and with
two feet.

Dragon eats lucky lettuce for Chinese New Year snack

By **Caleb (Explorer Club)**

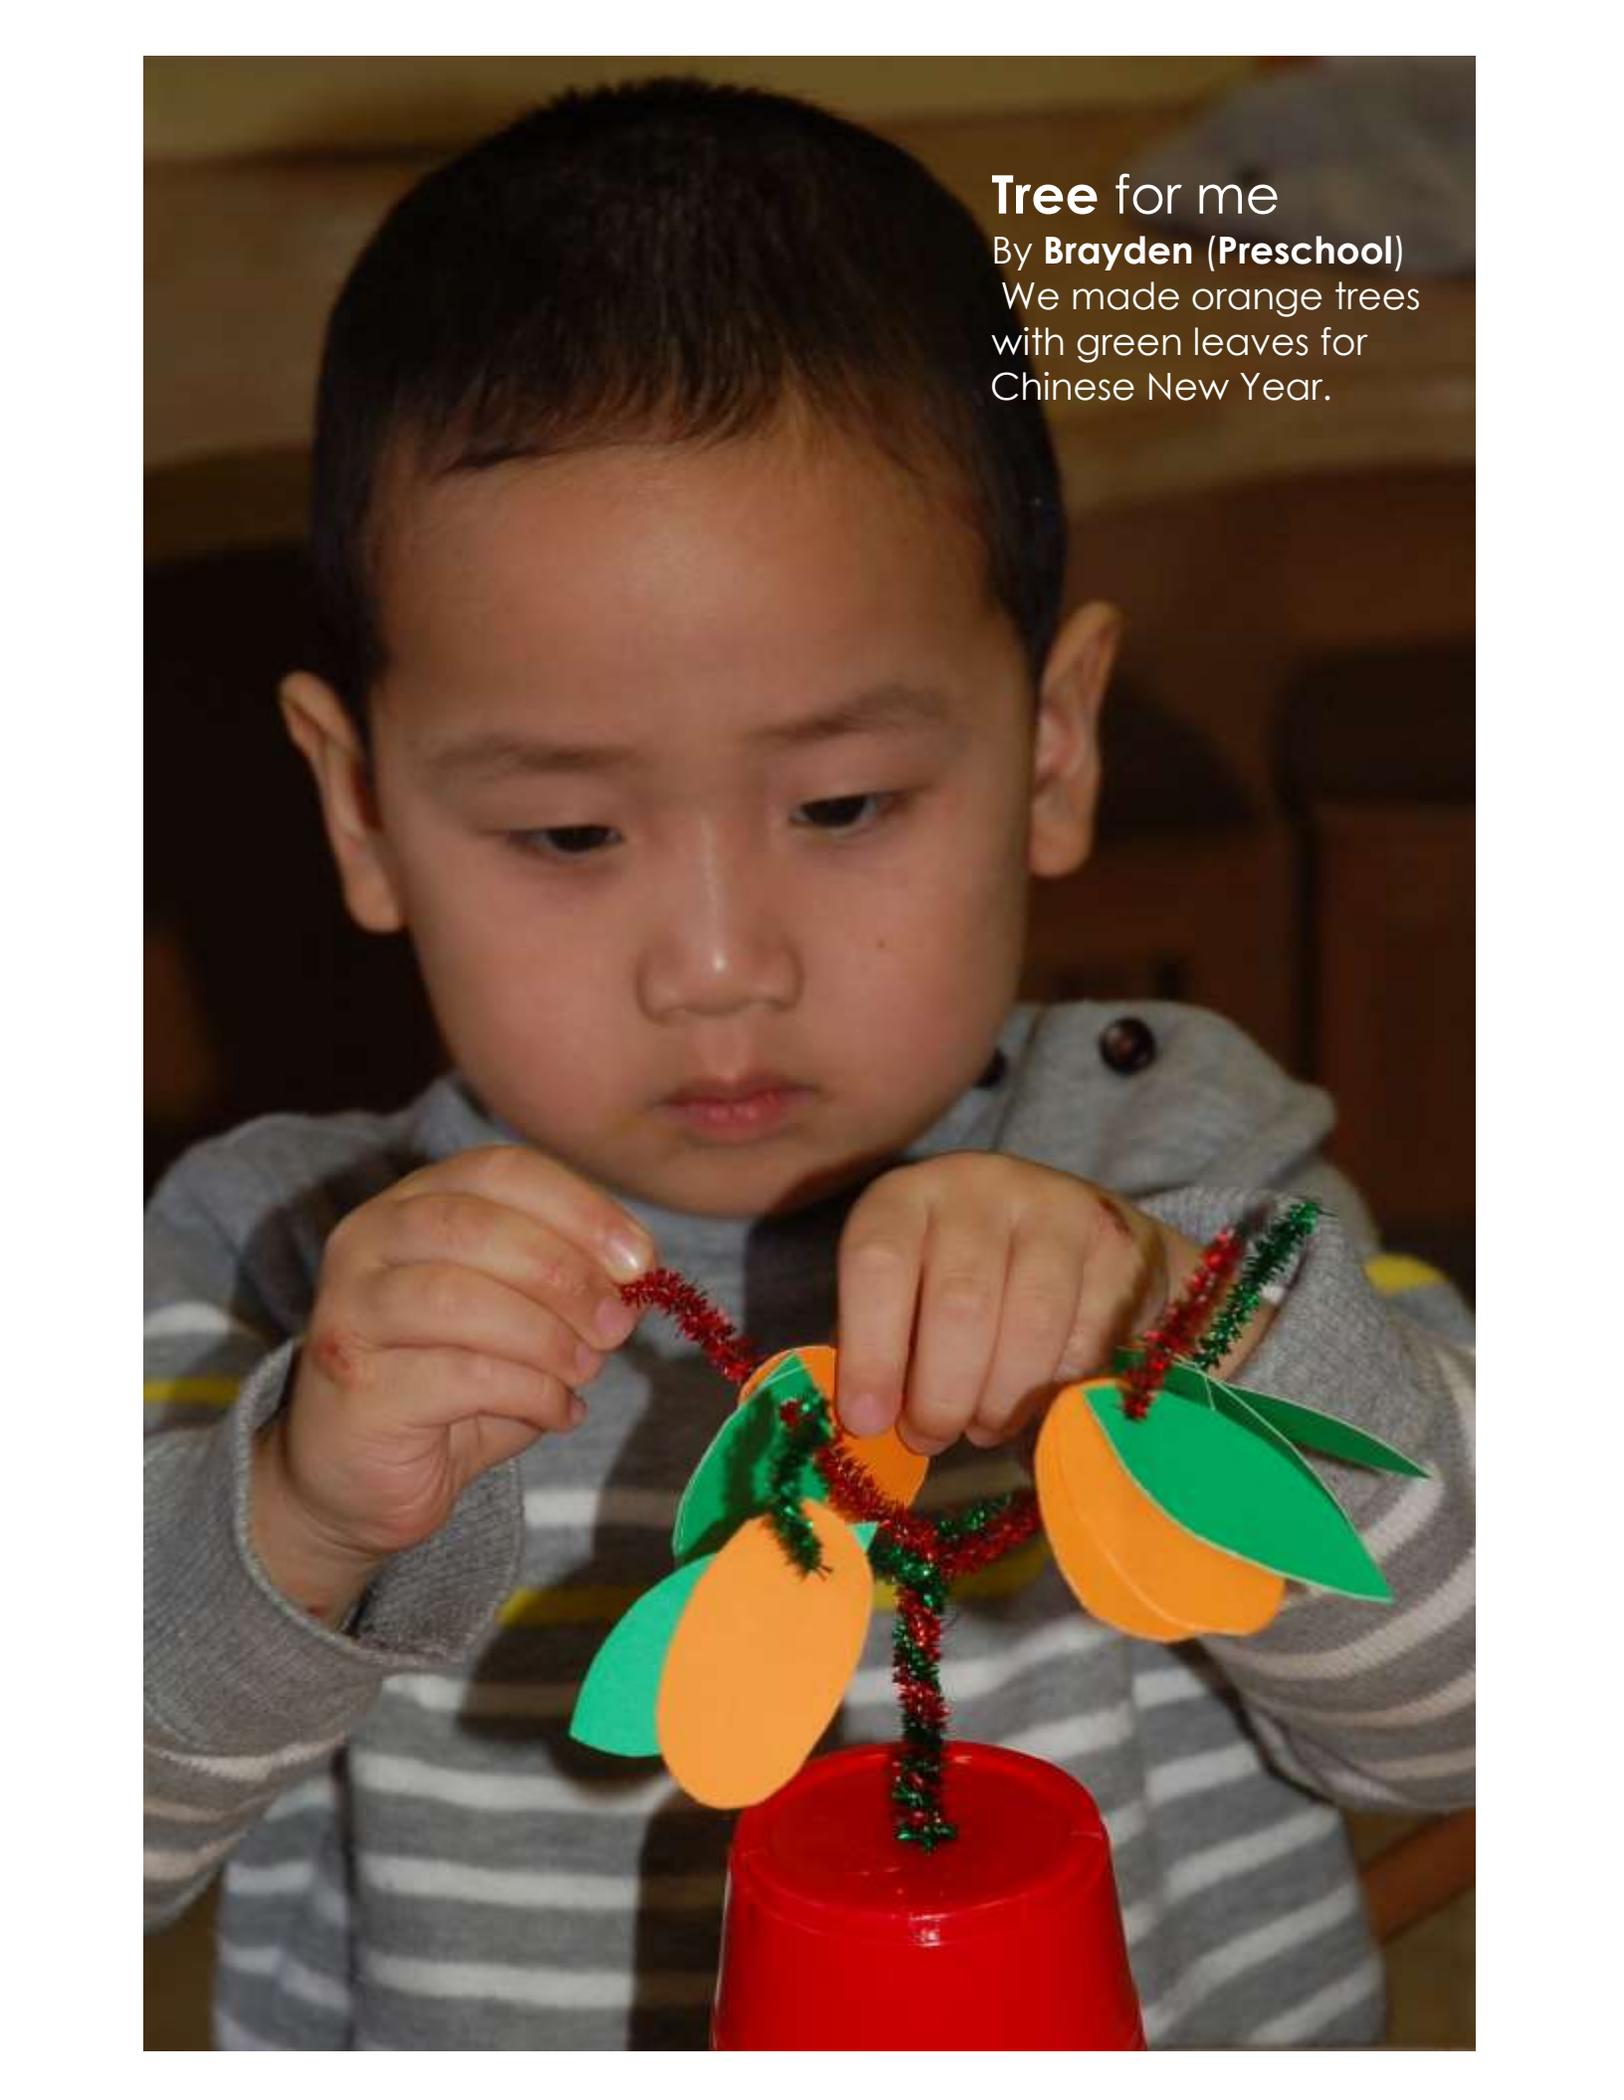

I held the lucky lettuce. I held it high and low. Then I let the dragon eat it.

By **Jeilynn (Discovery Club)**

The dragon's head is heavy and not very comfortable. I couldn't see very well. It hurt my head when we went up and down for the lettuce. I have never been a dragon before. It was fun.

By **Mizuki (Discovery Club)**

It was fun to be the dragon's body. I held Jeilynn's shoulders. It was like a conga line. Cha-cha-cha. I couldn't see anything because I was under a blanket.

Tree for me

By **Brayden (Preschool)**

We made orange trees with green leaves for Chinese New Year.

Put shapes in box until the **Perfection 'pop'** means stop

By **Ary (Discovery Club)**

I like to play Perfection. It is fun to put the shapes in the box. They pop out when the time runs out – that scares me. I feel nice when I get all the shapes in before the “pop”.

Discovery Club was asked, “What game do you like to play?”

Camille – Xs and Os. I always put an “X” in the corner.

Eden – Smiley Games. I like the “yellow, heart-eyes” emoji card.

Edward – Checkers. You don’t know who is going to win.

Jeilynn – Dominoes. I like to build houses.

Jagger – Chess. I like to move the queen to get a checkmate.

Joshua – Spot It. I like to try and get the most cards in “Tower” and “Twins”.

Kamal – Chess. It’s hard and challenging.

Marley – Perfection. Sometimes I get them in before it blows.

Mizuki – Monopoly. I like the characters.

Skylar – Monopoly. You get pretend money and houses.

Talia – Choices. “Would you rather be popular or unpopular?”

Walking the dog

A stroll at 1350 West 67th Avenue in January 2017 revealed:

Adventure Club parkour pals were thrilled to have white winter walkabouts. They did their mount-and-dismount routines over giant snowball obstacles and down slippery sandbox slopes. Flow with the snow.

Cars are stars as **Explorer Club** race and rate Hot-and-Not Wheels.

Does **Yogo (Preschool)** do yoga? Yes. Friday fitness fun with circle time friends.

Photo: **Claire (Safe Base)** is ready to do the flick trick as she aims for the middle hole in Crokinole. Digit-to-disk dexterity.
