

Walking the dog

Out-and-about with Spare Time June 2026

Aria (Discovery), Marcus (Adventure), Ruhan (Adventure): hop hoop hooray!

Two hopscotch courts and a basketball court open
squares numbered 1 to 8 and 3,400 square feet
one-at-a-time and one-on-one
“have a ball” and need a ball
feet jump and jump shot.

James (Voyagers): reach for the top.

Voyagers: motion emotion.

"Climbing up is easy," said **Joshua**.

"You need to have good hand and feet muscles and hold tight.

"I feel brave and happy to reach the top."

"Swinging upside down and doing back flips is startling," said **Emma**.

"The blood rushes down and sometimes I get a bit dizzy.

"When my hair is upside down it looks like a troll and feels nice.

"Afterwards, I think, this was a fun experience."

"I was afraid at first but I am now brave when I jump down," said **Samaira**.

"When I land, I think, I should do this again and again. It's really fun."

Chloe (Voyagers), Yara (Discovery): a plane is just plain fun.

Quiz: air or error

- (1) finish this quote: "What goes up..."
